Installation Recommendations

Overview

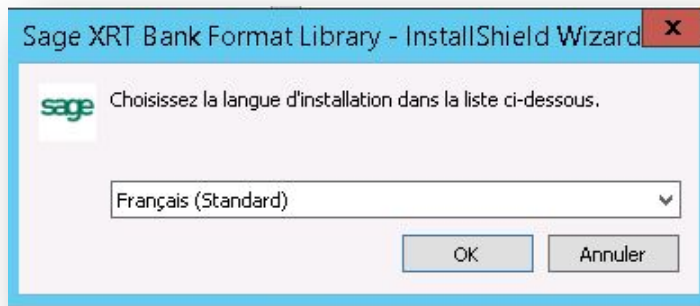

Sage XRT Bank Format Library provides you with all the scripts to manage bank formats for Sage XRT products.

The processing of these formats is executed through *CLINT* proprietary language engine.

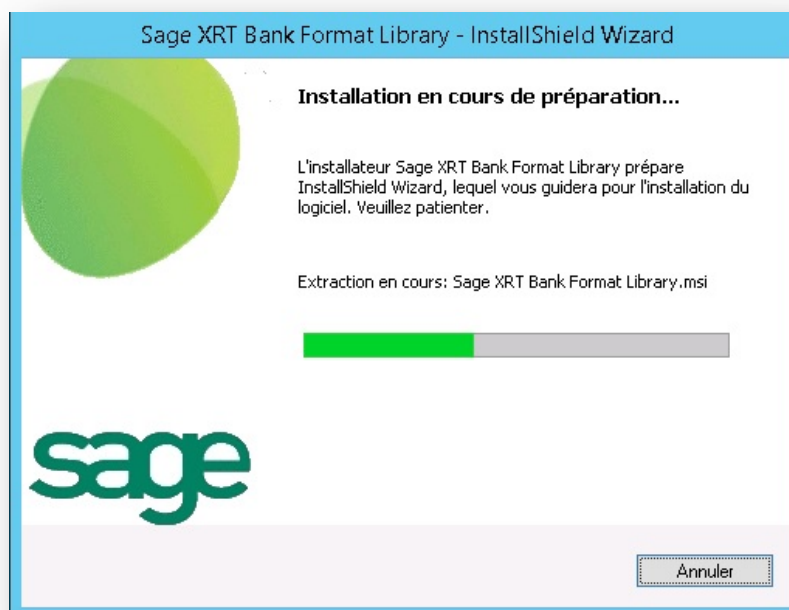

Sage XRT Bank Format Library installation can be applied to any version of **Sage XRT Common Services**: from 3.6.1.10 to 3.7, and future versions.

First Installation

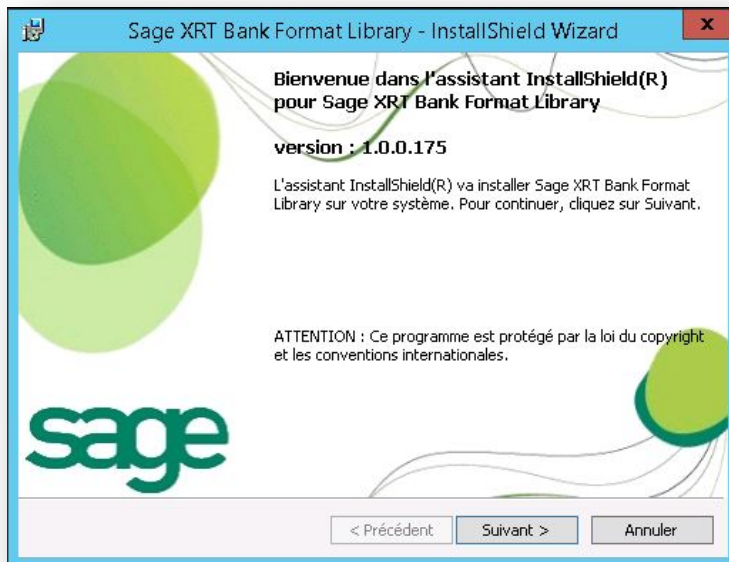

1. In **Products - Common** on the DVD, launch the **Setup.exe** and select your language, then click **OK**.

The installation starts and a progress window is displayed. Click **Cancel** at any time to abort the installation process.

2. In the **Welcome** screen of **Sage XRT Bank Format Library** where you can see the product version, click **Next**.

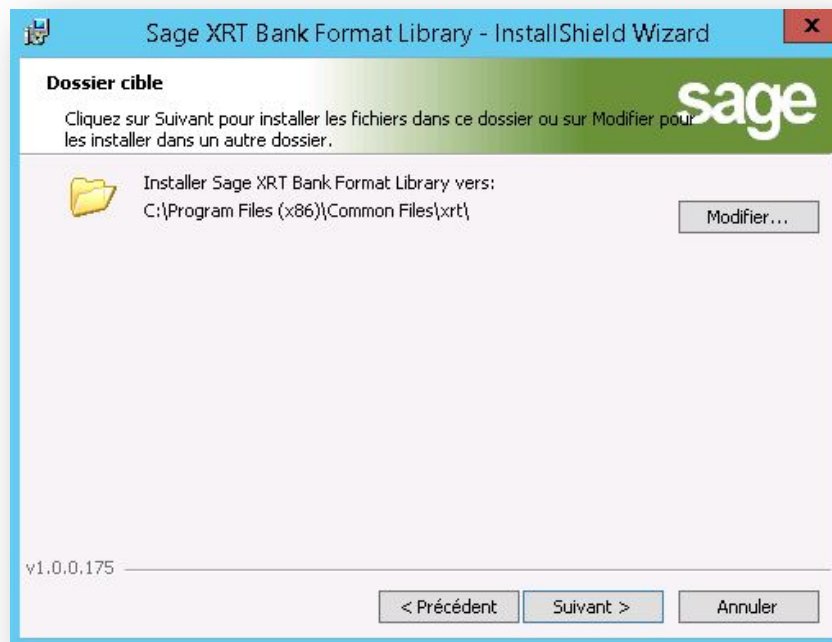

The **Customer Information** screen is displayed.

3. Enter your login name in the **User Name** field and the name of your company in the **Organization** field. Click **Next**.

4. In the **Destination folder** window, click **Modify** to change the installation folder.

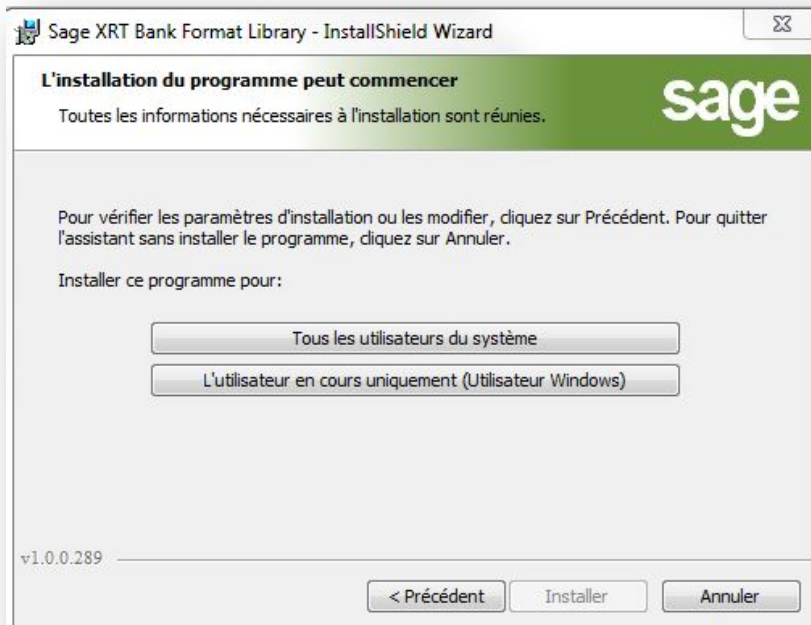

In the displayed **Destination Folder Modification** window, enter the name of the folder and click **OK**.

5. Select **Next**.

The **Ready to Install the Program** screen is displayed:

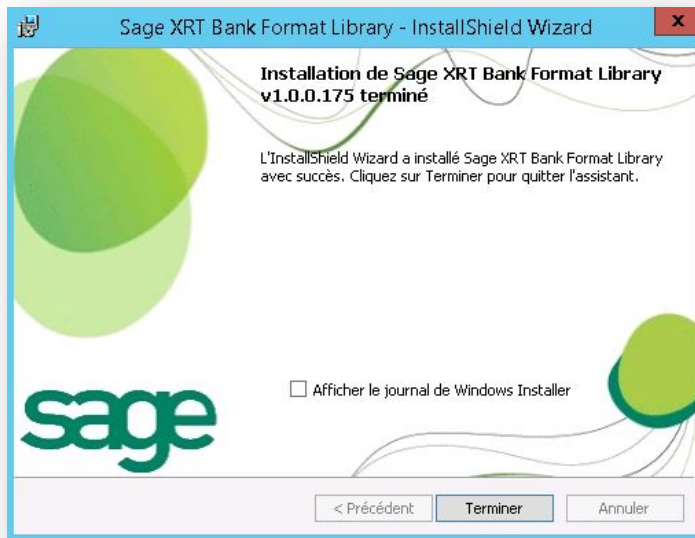

6. Select an accessibility option:

- The **Anyone who uses this computer (all users)** option is recommended for **Sage XRT Bank Format Library**.
- The **Only for me (Sage)** option indicates that only the current user will be able to use the application.

The installation of **Sage XRT Bank Format Library** begins.

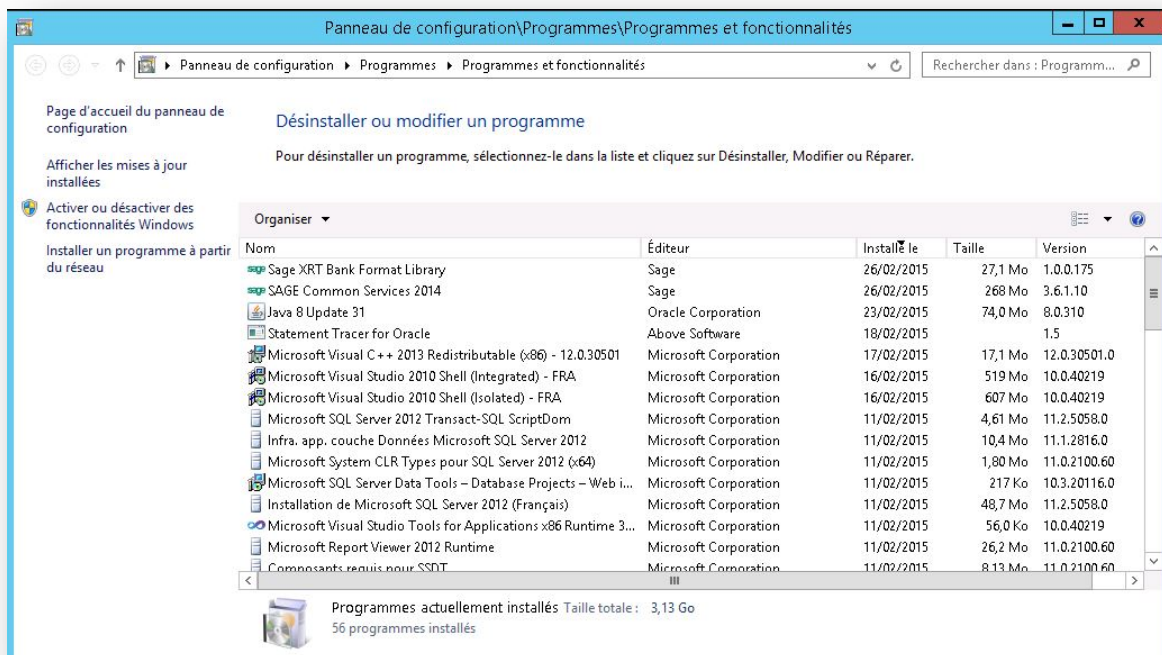

The final window is displayed: **InstallShield Wizard Completed**

You can display *Windows Installer* log by selecting the corresponding option in the last window.

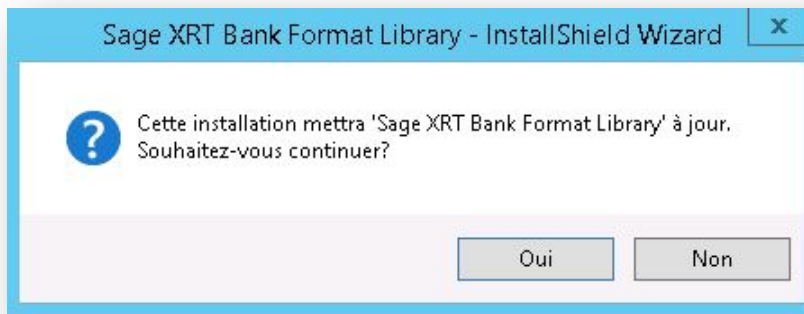

One line with **Sage XRT Bank Format Library** was added to:

Control Panel – Programs - Programs and Features

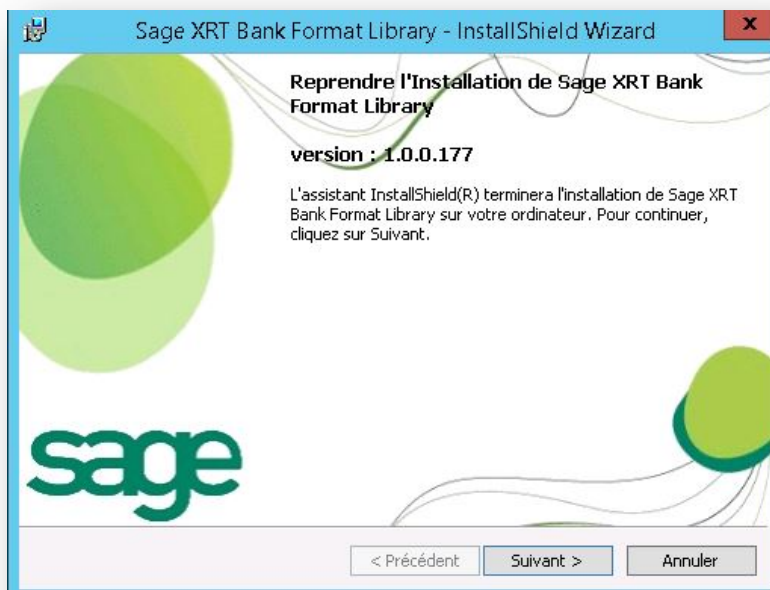

Upgrade Installation

1. When the upgrading process starts, this message appears: "This set up will perform an upgrade of 'Sage XRT Bank Format Library'. Do you want to continue?". Click Yes.

2. After the installation preparation step, the message: **Sage XRT Bank Format Library** specifies the version. Click **Next**.

The upgrade is being installed. This may take several minutes.
